LinkedIn | GitHub | Portfolio

Front-end web developer employing marketing background to build a more intuitive and engaging user experience on the web. As a professional musician, I have a deep appreciation for the importance of understanding the business side of a creative field. Recently earned a certificate in full stack development from University of Richmond. Eager to combine my background in the entertainment industry with my technical skills to offer a consistent team player with strengths in creativity and competitiveness to do and learn more.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, Query, Bootstrap

PROJECTS

CampGround Finder | GitHub | CampGround Finder
- Summary: Web app to find campgrounds and the weather forecast for each location
- Role: Lead Javascript developer, Project Leader
- Tools: HTML, CSS, JavaScript, Materialize, Google Places API, OpenWeatherMap API

EXPERIENCE

Sound Engineer, Expeditor, Food Runner   2018 – 2019
SOUTH Kitchen & Jazz Bar   Philadelphia, PA
Sole operator of the venue as sound engineer, managed the pace and flow of the kitchen as expo, & styled and delivered food to customers
Key Accomplishments:
- Hired as a food runner and quickly promoted to expeditor who sets the pace of the kitchen and communicates the server's needs with the cooks
- Given the opportunity to shadow a sound engineer, I developed the skills needed to run the venue in one week with little to no prior experience

EDUCATION

Certificate, Full Stack Web Development – University of Richmond   Richmond, VA

Bachelor of Science, Marketing – Virginia Commonwealth University   Richmond, VA
